# How does on-grid solar work

|            | Solar generation units | House consumption units |                          |
|------------|------------------------|-------------------------|--------------------------|
| Month 1    | 120 units              | 100 Units               | 20 units exported        |
| Month 2    | 70 Units               | 100 Units               | 30 units imported        |
| <b>Net</b> | <b>190 units</b>       | <b>200 Units</b>        | <b>10 units imported</b> |

## Off-grid solar plant

For remote areas without electricity access.

## Hybrid solar plant

Ideal for areas experiencing more than 40% electricity outage.

## 0 investment & 25 years of free power

| Year    | Project cost | Down payment | Subsidy   | Annual EMI | Annual solar savings | Returns on FD | Net cost |
|---------|--------------|--------------|-----------|------------|----------------------|---------------|----------|
| 1       | 3,30,000     | 99,000       | -1,08,000 | 62,000     | -52,500              | -17,300       | -16,800  |
| 2       |              | 0            | 0         | 62,000     | -52,500              | -17,300       | -7,800   |
| 3       |              | 0            | 0         | 62,000     | -52,500              | -17,300       | -7,800   |
| 4       |              | 0            | 0         | 62,000     | -52,500              | -17,300       | -7,800   |
| 5       |              | 0            | 0         | 62,000     | -52,500              | -17,300       | -7,800   |
| onwards |              | 0            | 0         | 0          | -52,500              | -17,300       | -69,800  |

Project size - 5 kw | Tariff - ₹7.5 | FD rate - 7.50%

# Solar is a smart choice

## You eliminate electricity bill for life

Plan your solar considering growing needs for the next 5 years.

## It comes with 0 investment

Pay for solar through your solar savings not life savings.

## Savings for the long-term

Savings from solar plants benefits your next generation.

## Be a climate hero

That's not all, now be recognized and rewarded for inspiring others to go solar.

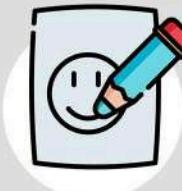

## Over committed savings

Car mileage in real life is lesser than advertised. "Kitna deti hai?" pe guarantee lena na bhoolein.

## Fake promises

Don't trust non-sense generation numbers or "maintenance free solar" which don't last more than 5 years.

## Non-engineered Solar

Your solar can fail without proper engineering and design practices that ensures safety and max generation.

## Side business vendors

Solar is a lifetime commitment. Ensure your solar partner is as serious as you are and will be there when you need him in future.

## Symbols Of Trust

# What it means for you

- 01
- 02
- 03
- 04

## Savings protection guarantee

Guaranteed generation may vary for homes. Final guaranteed units will be confirmed as per the final design confirmation post order booking.

## Savings countdown

Let SolarSquare take care of all the processes. Your savings protection guarantee starts 60 days after your order is confirmed as committed.

## Zero repairs

We have you covered for any repairs, replacements or spares that are needed over the next 5 years at no extra cost.

## Water leakage proof installation

We use HILTI Airtight Seal to safeguard you against any water seepage issues on your roof. Hence we provide a water leakage cover of up to ₹1 Lac in case of any damages.

# What is not included

- 02
- 03
- 04

## Savings protection guarantee

Deemed generation loss – generation loss due to grid electricity downtime. Any physical changes at site causing shadow losses not present at the time of order placement.

## Savings countdown

Order is confirmed post completion of the following steps –

- 30% payment received
- No bill correction required
- Design approval by customer

## Zero repairs

Any external damage due to human intervention or natural calamities.

## Up to ₹1 lac waterproof guarantee

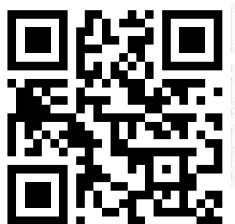

Any seepage in non-solar area due to preexisting condition or any other non-related work.
